Commodore Builders to walk side-by-side with Client who lost wife to Cancer

Julie Fund Walk-a-thon Kicks-off on June 17th, at Artesani Park in Brighton

(**Newton, MA**)--May 15, 2006 -- In a show of support for their client Peter McAvinn, of **New York Life**, members of the staff of **Commodore Builders** will walk in the *First Annual Julie Fund Walk-a-Thon*. The 5K walk is held in memory of Peter's wife, Julie Paige McAvinn, who passed away two years ago at 40 years old from ovarian cancer, following a three-month battle with the disease. The walk will take place on **Saturday, June 17, 2006 at 9:00 a.m.** in Artesani Park (1234 Soldiers Field Rd., Brighton, MA).

“Over the past year we have completed three projects with Peter and New York Life, and our companies will embark on an upcoming project in Providence, RI,” said **Joe Albanese**, president of Commodore Builders. “But beyond the work that we do as builders, Commodore strives to give back to the communities and people who give so much to us, so it is only natural to become involved in helping Peter carry out his wife's wish to ‘*do something to help other people faced with this terrible situation*’.”

The Julie Fund was Julie's idea when she became ill, and was established by her family and friends in partnership with the **Massachusetts General Hospital**. Proceeds from the walk will be used to fund research for ALL women's cancers, as well as non-medical expenses for families of women cancer sufferers, and to spread awareness of detection and treatments of women's cancers.

For more information about the *Julie Fund Walk-a-Thon*, or to make a donation, visit www.juliefund.org.

About Commodore Builders:

Commodore's mission is to set a new standard of excellence for the delivery of construction management services to our clients. Commodore believes the quality of the construction *process* is as important as the quality of the construction. From project conception to preconstruction, execution, closeout and warranty service, Commodore's role is to anticipate and manage the risks inherent in construction. Commodore takes charge, so the process for clients is easy and the outcome is excellence in execution.
